Learning AV Foundation Bob McCune, 2014 The massive success of apps like Instagram, iMovie, and Vine proves that users want tools to help them capture, edit, and share their lives. If you want to build those apps for iOS or OS X, you need to understand Apple's most powerful media framework: AV Foundation. Until now, however, this meant wrestling with Apple's massive, out-of-date API documentation. Now, there's a more productive and efficient alternative. Learning AV Foundation helps you gain real-world mastery by teaching each aspect of the framework in the context of building real world applications. By the time you finish, you'll have built a voice memo app, custom video player, video editor, and an image and video camera app -- and you'll have mastered all the techniques you need to write your own advanced media apps with AV Foundation. Most chapters contain additional optional exercises, to help you further deepen your understanding. Learning AV Foundation comes with a complete collection of starter apps that abstract away visual aspects, so you can focus solely on AV Foundation without getting bogged down in supporting infrastructure. Coverage includes: Understanding the AV Foundation media environment ; Basic techniques for working with media: playback, recording, and more ; Basic and advanced media capture ; Media creation and editing: composing media, mixing audio, creating video transitions, and layering animated content ; Advanced topics, including real-time audio and video effects ; Integrating AV Foundation with

Wicked Gregory Maguire, 2009-10-13 The New York Times bestseller and basis for the Tony-winning hit musical, soon to be a major motion picture starring Cynthia Erivo and Ariana Grande With millions of copies in print around the world, Gregory Maguire’s *Wicked* is established not only as a commentary on our time but as a novel to revisit for years to come. *Wicked* relishes the inspired inventions of L. Frank Baum’s 1900 novel, *The Wonderful Wizard of Oz*, while playing sleight of hand with our collective memories of the 1939 MGM film starring Margaret Hamilton (and Judy Garland). In this fast-paced, fantastically real, and supremely entertaining novel, Maguire has populated the largely unknown world of Oz with the power of his own imagination. Years before Dorothy and her dog crash-land, another little girl makes her presence known in Oz. This girl, Elphaba, is born with emerald-green skin—no easy burden in a land as mean and poor as Oz, where superstition and magic are not strong enough to explain or overcome the natural disasters of flood and famine. Still, Elphaba is smart, and by the time she enters Shiz University, she becomes a member of a charmed circle of Oz’s most promising young citizens. But Elphaba’s Oz is no utopia. The Wizard’s secret police are everywhere. Animals—those creatures with voices, souls, and minds—are threatened with exile. Young Elphaba, green and wild and misunderstood, is determined to protect the Animals—even if it means combating the mysterious Wizard, even if it means risking her single chance at romance. Ever wiser in guilt and sorrow, she can find herself grateful when the world declares her a witch. And she can even make herself glad for that young girl from Kansas. Recognized as an iconoclastic tour de force on its initial publication, the novel has inspired the blockbuster musical of the same name—one of the longest-running plays in Broadway history. Popular, indeed. But while the novel’s distant cousins hail from the traditions of magical realism, mythopoeic fantasy, and sprawling nineteenth-century sagas of moral urgency, Maguire’s *Wicked* is as unique as its green-skinned witch.

The Man of My Dreams Curtis Sittenfeld, 2006-05-16 In her acclaimed debut novel, *Prep*, Curtis Sittenfeld created a touchstone with her pitch-perfect portrayal of adolescence. Her prose is as intensely realistic and compelling as ever in *The Man of My Dreams*, a disarmingly candid and sympathetic novel about the collision of a young woman's fantasies of family and love with the challenges and realities of adult life. Hannah Gavener is fourteen in the summer of 1991. In the magazines she reads, celebrities plan elaborate weddings; in Hannah's own life, her parents' marriage is crumbling. And somewhere in between these two extremes—just maybe—lie the answers to love's most bewildering questions. But over the next decade and a half, as she moves from Philadelphia to Boston to Albuquerque, Hannah finds that the questions become more rather than less complicated: At what point can you no longer blame your adult failures on your messed-up childhood? Is settling for someone who's not your soul mate an act of maturity or an admission of defeat? And if you move to another state for a guy who might not love you back, are you being plucky—or just pathetic? None of the relationships in Hannah's life are without complications. There's her father, whose stubbornness Hannah realizes she's unfortunately inherited; her gorgeous cousin, Fig, whose misbehavior alternately intrigues and irritates Hannah; Henry, whom Hannah first falls for in college, while he's dating Fig; and the boyfriends who love her more or less than she deserves, who adore her or break her heart. By the time she's in her late twenties, Hannah has finally figured out what she wants most—but she doesn't yet know whether she'll find the courage to go after it. Full of honesty and humor, *The Man of My Dreams* is an unnervingly insightful and beautifully written examination of the outside forces and personal choices that make us who we are.

Rio 2016 Andrew Zimbalist, 2017-09-12 A clear-eyed, critical examination of the social, political, and economic costs of hosting the 2016 summer Olympics. The selection of Rio de Janeiro as the site of the summer 2016 Olympic Games set off jubilant celebrations in Brazil—and created enormous expectations for economic development and the advancement of Brazil as a major player on the world stage. Although the games were held without major incident, the economic, environmental, political, and social outcomes for Brazil ranged from disappointing to devastating. Corruption scandals trimmed the fat profits that many local real estate developers had envisioned, and the local government was driven into bankruptcy. At the other end of the economic spectrum, some 77,000 residents of Rio's poorest neighborhoods—the favelas—were evicted and forced to move, in many cases as far as 20 or 30 miles to the west. Hosting the games ultimately cost Brazil \$20 billion, with little positive to show for the investment. *Rio 2016* assembles the views of leading experts on Brazil and the Olympics into a clear-eyed assessment of the impact of the games on Brazil in general and on the lives of Cariocas, as Rio's residents are known. Edited by sports economist Andrew Zimbalist, the other contributors include Juliana Barbassa, Jules Boykoff, Jamil Chade, Stephen Essex, Renata Latuf, and Theresa Williamson.

Valor's Choice Tanya Huff, 2022-07-29 Tanya Huff—acclaimed author of the Blood Series—begins her celebrated Confederation series that will launch readers into a future where Humans are not the most evolved species... Good thing they can take orders. Brought into the multi-species Confederation, Humans earn their place along the Taykan and the Krai by acting as military guardians of the Elder Races, who have risen above societal aggression and violence. When Staff Sergeant Torin Kerr and her platoon are dragged from some well-deserved R&R to play honor guard for a diplomatic mission to the non-Confederation planet of the Silsviss, Torin suspects that something is about to go wrong. You don't make staff sergeant in the CMC without a well-developed sense of paranoia. Justified paranoia when word reaches them that the enemy has been spotted in this sector of space. The diplomatic mission becomes a race to recruit the Silsviss into the Confederation before the enemy returns, claims the reptilian warriors as their own, and turns them loose on the Confederation. One battle-weary platoon has to step up to stop the slaughter.

Amharic cultural reader Wolf Leslau, Thomas Leiper Kane, 2001 This collection of essays has two purposes: first to give the advanced student of Amharic a sample of the Amharic writing style and secondly to provide information on Ethiopia's cultural background. The texts were written by several Ethiopian university students some 40 years ago on subjects with which they were most familiar such as naming, christening, wedding, burial ceremony, food and drink, the manner of wearing clothes, house construction in Amhara country, daily work of an Ethiopian woman, landholding disputes, beauty, merchant, mercato, country market, artisans, elderhood, priests, dabtara, monkhood, divination, Christmas, Easter, Addis Ababa, the City of Gondar, Harar City etc. Although some time has passed since the collection was compiled the texts convey a good picture of Ethiopian culture. Each Amharic text is given an English translation on the opposite side. The book is

completed by an Amharic-English Dictionary of nearly 90 pages and an index of English words and Amharic lexemes.

Environmental Engineering Dictionary and Directory Thomas M. Pankratz, 2000-09-22 Like most technical disciplines, environmental science and engineering is becoming increasingly specialized. As industry professionals focus on specific environmental subjects they become less familiar with environmental problems and solutions outside their area of expertise. This situation is compounded by the fact that many environmental science related terms are confusing. Prefixes such as bio-, enviro-, hydra-, and hydro- are used so frequently that it is often hard to tell the words apart. The Environmental Engineering Dictionary and Directory gives you a complete list of brand terms, brand names, and trademarks - right at your fingertips.
