The Force Don Winslow, 2017-06-20 Instant New York Times Bestseller Best of 2017 - included on best-of lists by the New York Times, NPR, Barnes & Noble, Publisher's Weekly, LitHub, BookPage, Booklist, TheRealBookSpy.com, the Financial Times (UK) and the Daily Mail (UK) "The Force is mesmerizing, a triumph. Think The Godfather, only with cops. It's that good." — Stephen King The acclaimed, award-winning, bestselling author of The Cartel—voted one of the Best Books of the Year by more than sixty publications, including the New York Times—returns with a cinematic epic as explosive, powerful, and unforgettable as *Mystic River* and *The Wire*. Our ends know our beginnings, but the reverse isn't true . . . All Denny Malone wants is to be a good cop. He is "the King of Manhattan North," a highly decorated NYPD detective sergeant and the real leader of "Da Force." Malone and his crew are the smartest, the toughest, the quickest, the bravest, and the baddest, an elite special unit given unrestricted authority to wage war on gangs, drugs and guns. Every day and every night for the eighteen years he's spent on the Job, Malone has served on the front lines, witnessing the hurt, the dead, the victims, the perps. He's done whatever it takes to serve and protect in a city built by ambition and corruption, where no one is clean—including Malone himself. What only a few know is that Denny Malone is dirty: he and his partners have stolen millions of dollars in drugs and cash in the wake of the biggest heroin bust in the city's history. Now Malone is caught in a trap and being squeezed by the Feds, and he must walk the thin line between betraying his brothers and partners, the Job, his family, and the woman he loves, trying to survive, body and soul, while the city teeters on the brink of a racial conflagration that could destroy them all. Based on years of research inside the NYPD, this is the great cop novel of our time and a book only Don Winslow could write: a haunting and heartbreaking story of greed and violence, inequality and race, crime and injustice, retribution and redemption that reveals the seemingly insurmountable tensions between the police and the diverse citizens they serve. A searing portrait of a city and a courageous, heroic, and deeply flawed man who stands at the edge of its abyss, *The Force* is a masterpiece of urban living full of shocking and surprising twists, leavened by flashes of dark humor, a morally complex and utterly riveting dissection of modern American society and the controversial issues confronting us today.

A Force More Powerful Peter Ackerman, Jack DuVall, 2015-12-01 This nationally-acclaimed book shows how popular movements used nonviolent action to overthrow dictators, obstruct military invaders and secure human rights in country

after country, over the past century. Peter Ackerman and Jack DuVall depict how nonviolent sanctions--such as protests, strikes and boycotts--separate brutal regimes from their means of control. They tell inside stories--how Danes outmaneuvered the Nazis, Solidarity defeated Polish communism, and mass action removed a Chilean dictator--and also how nonviolent power is changing the world today, from Burma to Serbia.

Grounded Robert M. Farley, 2014-01-31 Director and producer Tim Burton impresses audiences with stunning visuals, sinister fantasy worlds, and characters whose personalities are strange and yet familiar. Drawing inspiration from sources as varied as Lewis Carroll, Salvador Dalí, Washington Irving, and Dr. Seuss, Burton's creations frequently elicit both alarm and wonder. Whether crafting an offbeat animated feature, a box-office hit, a collection of short fiction, or an art exhibition, Burton pushes the envelope, and he has emerged as a powerful force in contemporary popular culture. In *The Philosophy of Tim Burton*, a distinguished group of scholars examines the philosophical underpinnings and significance of the director's oeuvre, investigating films such as *Batman* (1989), *Edward Scissorhands* (1990), *The Nightmare before Christmas* (1993), *Sleepy Hollow* (1999), *Big Fish* (2003), *Sweeney Todd* (2007), *Alice in Wonderland* (2010), and *Dark Shadows* (2012). The essays in this volume explore Burton's distinctive style, often disturbing content, and popular appeal through three thematic lenses: identity, views on authority, and aesthetic vision. Covering topics ranging from Burton's fascination with Victorian ideals, to his celebration of childhood, to his personal expression of the fantastic, the contributors highlight the filmmaker's peculiar narrative style and his use of unreal settings to prompt heightened awareness of the world we inhabit. The

Philosophy of Tim Burton offers a penetrating and provocative look at one of Hollywood's most influential auteurs.
