Impromptu Judith Humphrey, 2017-11-27 Be Prepared to Lead in the Moment: Assess, think, and respond on-the-spot Impromptu shows leaders how to think on their feet and respond eloquently in every situation. Never have there been so many opportunities to inspire and influence in everyday situations -- elevator chats, corridor conversations, networking gatherings, meetings, and ceremonial events. Indeed, today the most iconic leadership moments are spontaneous, spur-of-the-moment events that reveal the inner workings of the leader's mind. When these impromptu opportunities arise, leaders must be able to listen, think, and respond within seconds. They don't read a script from a page, they convey the narrative that is already in their mind. They can tailor a message—in a meeting, in the corridor, or in a tweet—to influence and inspire any audience. Those who shine in that moment are remembered for their leadership. Those who stumble are remembered for their gaffes, mixed messages, or insensitivity. Nobody remembers the leaders who retreat to their office, formulate a strategic plan, and distribute a memo the following week. Guided by her entrepreneurial success as founder of The Humphrey Group and her firm's work with tens of thousands of leaders over the past 30 years, Judith Humphrey makes clear the importance of preparing to be spontaneous -- as counterintuitive as that may sound! Drawing upon the best impromptu moments from the Greeks to the present, the book looks at every aspect of impromptu speaking. You will learn how to: Think like an impromptu leader Quickly read an audience of one or a thousand Collect your thoughts and craft a persuasive message 'Script' yourself within seconds for any occasion Avoid 'um's' and 'ah's' and use the right words at the right time Discover improv techniques that will enable you to shine Deliver your message with clarity, confidence, and conviction. The ability to speak on the spot is often seen as an innate gift, a talent of 'natural-born' leaders. The truth is, it's a skill that can be learned—a skill that is quickly becoming a must-have for anyone in a leadership position. Impromptu provides clear, actionable guidance to help you reach your full leadership potential. It will enable you to influence and inspire followers on the many 'small stages' that define our daily lives.

Improv Wisdom Patricia Ryan Madson, 2010-03-24 In an irresistible invitation to lighten up, look around, and live an unscripted life, a master of the art of improvisation explains how to adopt the attitudes and techniques used by generations of musicians and actors. Let's face it: Life is something we all make up as we go along. No matter how carefully we formulate a “script,” it is bound to change when we interact with people with scripts of their own. Improv Wisdom shows how to apply the maxims of improvisational theater to real-life challenges—whether it's dealing with a demanding boss, a tired child, or one of life's never-ending surprises. Patricia Madson distills thirty years of experience into thirteen simple strategies, including “Say Yes,” “Start Anywhere,” “Face the Facts,” and “Make Mistakes, Please,” helping readers to loosen up, think on their feet, and take on everything life has to offer with skill, chutzpah, and a sense of humor.

Speak with Impact Allison Shapira, 2018-10-16 When you know what to say and how to say it, people listen. Find your

powerful voice, and step into leadership. Speak with impact. Every day, you have an opportunity to use your voice to have a positive impact -- at work or in your community. Whether it's speaking up at a meeting, presenting to clients, or talking to large groups, this book's easy-to-use frameworks, examples and exercises will help you: Engage your audience through storytelling and humor Use breathing techniques to overcome stage fright Strengthen and project your voice by banishing filler words/uptalk Use effective body language and build your executive presence Compose a clear message and deliver confident, authentic presentations Learn to conquer fear, capture attention, motivate action, and take charge of your career with *Speak with Impact*.

Recharge Your Library Programs with Pop Culture and Technology: Linda D. Behen, 2013-06-17 Learn how to integrate pop culture and technology into school library programs and classrooms, and make today's digital content, mobile devices, and students' changing interests work to the educator's advantage. Today's school libraries need to evolve and meet the needs of 21st-century students—the instruction, programming, and library services must be relevant to today's learners. Additionally, the interactions between educators and the students are what make the critical difference in the students' learning, and turn the library and classroom into places where they will find, assimilate, experience, and understand information. This book provides practical strategies for using pop culture and technology trends to connect with easily distracted middle and high school students and hold their attention. Author Linda D. Behen addresses why school libraries are in transition and why there is a need for dramatic change. She discusses the evolution of all libraries in response to

digital content; ubiquitous mobile devices such as smart phones, iPads, and other tablet computers; patrons' changing interests; and the ways in which schools and school libraries have found to effectively adapt to technology changes and student needs. This book is essential for middle and high school librarians and educators, library school students and instructors, and young adult public librarians.

The front of the book weaves text, illustration, cutouts, and screen prints, journeying through artistic process and educational practice. The back of the book is a guide, expanding on the practice of using accordion books as a tool for capturing, visualizing, and building upon reflective thinking. Khobar Towers: Tragedy and Response Perry D. Jamieson, 2008

Cooperative Buildings Norbert Streitz, Shin'ichi Konomi, Heinz-Jürgen Burkhardt, 2007-08-03 This volume constitutes the proceedings of the First International Workshop on - operative Buildings (CoBuild'98) - Integrating Information, Organization, and Architecture, held in Darmstadt, Germany, on February 25-26, 1998. The idea for this workshop and actually the term "cooperative building" was created during the activities of initiating the consortium "Workspaces of the Future" for conducting an interdisciplinary R&D program in cooperation with partners from industry. We discovered that there was no appropriate forum to present research at the intersection of information technology, organizational innovation,

and architecture. The theme “Integrating information, organization, and architecture” reflects the challenges resulting from current and future developments in these three areas. In the future, work and cooperation in organizations will be characterized by a degree of dynamics, flexibility, and mobility that will go far beyond many of today's developments and examples. The introduction of information and communication technology has already changed processes and contents of work significantly. However, the design of work environments, especially physical work spaces as offices and buildings, remained almost unchanged. It is time to reflect these developments in the design of equally dynamic, flexible, and mobile work environments. The papers of this volume show that this is an interdisciplinary endeavor requiring a wide range of perspectives and the utilization of results from various areas of research and practice.
