Book from the Ground Bing Xu, 2018-11-06 A book without words, recounting a day in the life of an office worker, told completely in the symbols, icons, and logos of modern life. Twenty years ago I made *Book from the Sky*, a book of illegible Chinese characters that no one could read. Now I have created *Book from the Ground*, a book that anyone can read. —Xu Bing Following his classic work *Book from the Sky*, the Chinese artist Xu Bing presents a new graphic novel—one composed entirely of symbols and icons that are universally understood. Xu Bing spent seven years gathering materials, experimenting, revising, and arranging thousands of pictograms to construct the narrative of *Book from the Ground*. The result is a readable story without words, an account of twenty-four hours in the life of “Mr. Black,” a typical urban white-collar worker. Our protagonist's day begins with wake-up calls from a nearby bird and his bedside alarm clock; it continues through tooth-brushing, coffee-making, TV-watching, and cat-feeding. He commutes to his job on the subway, works in his office, ponders various fast-food options for lunch, waits in line for the bathroom, daydreams, sends flowers, socializes after work, goes home, kills a mosquito, goes to bed, sleeps, and gets up the next morning to do it all over again. His day is recounted with meticulous and intimate detail, and reads like a postmodern, post-textual riff on James Joyce's account of Bloom's peregrinations in *Ulysses*. But Xu Bing's narrative, using an exclusively visual language, could be published anywhere, without translation or explication; anyone with experience in contemporary life—anyone who has internalized the icons and logos of modernity, from smiley faces to transit maps to menus—can understand it.

Bing Crosby Richard Grudens, 2003 Here is the quintessential Bing Crosby tribute from the pen of author and music historian, Richard Grudens, documenting the story of Crosby's colourful life, family, radio and television shows, and films; the amazing success story of a career that pioneered popular music spanning generations and inspiring many followers: Frank Sinatra, Tony Bennett, Perry Como, Jerry Vale, Dean Martin, Eddie Fisher, Pat Boone, Elvis Presley and Billy Eckstine, all of whom acknowledge their debt right between the covers of this book. An inspirational introduction by his lovely wife, Kathryn Grant Crosby, is followed by endearing, anecdotal accounts of those ubiquitous 'Road' films with Bob Hope, and detailed personal testimonials from show business icons in their own words. A 'must read' for Crosby fans, collectors, admirers, music lovers, and everyone who cherishes the music and anecdotes of the players involved in the Golden Age of Popular Music.

Bing Crosby Gary Giddins, 2009-11-29 From Bing Crosby's early days in college minstrel shows and vaudeville, to his

first hit recordings, from his 11 year triumph as star of America's most popular radio show, to his first success in Hollywood, Gary Giddins provides a detailed study of the rise of this American star.

The Cosmology of Bing Mitch Cullin, 2001 At Eric's Rotisserie, Bing sat outside by himself, nursing white zinfandel beneath the large sunshade that jutted from the center of his table, while a blustery wind roamed across campus -- swirling dead leaves and bits of trash around the chairs and tables, flapping the awnings on the massive umbrellas. The weather kept the patio abandoned, and Bing preferred it that way -- no chatty couples nearby, no loudmouth students talking about sports, or, even worse, popular music. On this chilly afternoon, he didn't care that he was alone. He didn't care that he'd left his coat in his office. And, for a moment, he almost didn't mind that his head wasn't quite screwed on tightly today. In *Cosmology of Bing* Mitch Cullin offers a tale of intersecting lives during one school year in Houston: the college student and his artist roommate, the reclusive poet, the astronomer studying a supernova at a remote West Texas observatory, the young Japanese woman hopelessly in love with her gay friend -- and at the center of this group is Bing Owen, a college professor who drowns his heartbreak, paranoia, and secret desires with alcohol. It's a darkly humorous novel about longing, buried feelings and muted relationships, forgotten poetry and thrown pies -- in which the mysteries of love, the interconnectedness of individuals, and the inexplicable nature of attraction occupy the same microcosm as exploding stars, ghost lights, and specters from the past.

Xu Bing Sarah E. Fraser, Yu-Chieh Li, 2020-07-20 This volume offers a path-breaking reassessment of Xu Bing's oeuvre by analyzing the diverse cultural environments in which his work has developed since the *Book from the Sky*. It contains three lecture transcripts and eight art historical essays; these explore themes such as Xu's animal works, audience participation, new ink, prints, realism, socialist spectacle, and word play. A critical question addressed in this volume is what carries art to a global level beyond regional histories and cultural symbols. Absorbing critical essays on contemporary Chinese aesthetics addressing the social context and philosophical concerns that underlie Xu Bing's key works. The authors analyze Xu's art, shedding light on the tangled history of socialism and neoliberalism in the Post-Mao period. --Prof. Dr. Lothar Ledderose, Senior Professor, Institute of East Asian Art, Universität Heidelberg

Microsoft Bing's Algorithm Explained IntroBooks Team, Microsoft has introduced the Graph (SPTAG) and Space Partition Tree algorithm visible to everyone as an open-source GitHub project, applied in its own Bing search engine. The algorithm allows the use of deep learning models and vector search to produce search-based results. It involves SPTAG understanding. The latest surge in advertisements and marketing promotions for Microsoft's new search engine viz., Bing, raises concerns about whether the formulas of the new engine allocate page rank to optimistic websites. It appears to be a skeptic approach if Bing will live up to expectations and become a genuine contender to Google. However, it is worth investigating how the search engines assess Bing in keeping with Google's popularity. Bing doesn't operate the same as Google, where the message of the anchor wouldn't be enough of a problem. Google counts the connection more than it counts the anchor text. Bing works in exactly the opposite way. It counts the text of the anchor more than just the link.

A discography, a fact file and a large index, which picks up many other show biz icons, supplements this work.

Going My Way Ruth Prigozy,Walter Raubicheck,2007 A study of the singer/actor's art and of his centrality to the history of twentieth-century music, film, and the entertainment industry. It uses a range of perspectives to explore Crosby's achievements. It also includes tributes and reminiscences and explores his accomplishments as an actor, businessman, and radio and television performer.

Dave Bing: Attacking the Rim Dave Bing,T.V. LoCicero,2020 A young black boy, legally blind in one eye, from a hard-working family in the poorest section of Washington, D.C., leaps to the pinnacle of his sport: the NBA Hall of Fame. A rookie bank teller rises to become one of the nation's most celebrated black business leaders. A once-reluctant political neophyte answers the call to become mayor of America's most troubled city, and he establishes a mentoring program for African-American boys that serves as a model for the nation. All of these stories belong to Dave Bing. In *Attacking the Rim*, Bing shares this multifaceted personal saga with rare combination of modesty, moxie and powerful self-belief. Reflecting on his playing days with the Detroit Pistons, Washington Bullets, and Boston Celtics, Bing takes readers inside the exciting world of pro basketball at the moment when sensational athletes were turning a low-budget game into a high-powered, multi-million dollar entertainment spectacle. From inside the Detroit mayor's office, he offers a first-hand look at the city's plight, including intractable debt and corruption, massive unemployment, woeful city services and infrastructure, and the daily

Bing: From Farmer's Son to Magistrate in Han China Michael Loewe, 2011-09-15 Much is known of life during the Han Empire, but the historical evidence remains fragmentary, and nowhere do we find a continuous account of the life of any one individual. In this engaging volume, Michael Loewe mines the written and material records to depict the imagined life of an ordinary person, Bing Wu, from the hardships of his earliest years on a rural farm to his retirement from a respected position in government service. Underlying the tale of Bing is a richly detailed portrait of life during the Han--the arduous tasks of the conscript laborer; military service on the defense lines of the north; the travels of a merchant; the grueling conditions in an iron foundry; the construction of tombs; preparations for entering the civil service; the duties of a junior clerk and the governing of a commandery. Along the way, we are introduced to the operation of a crossbow; methods of telling time; the practice of writing; the rituals of divination; the ceremony of a state occasion, laws and the harsh consequences of breaking them; the workings of the central government and much more. Included are a concise introduction, explanatory endnotes to each chapter, a selection of illustrations, a map of the Han Empire, notes for further reading and an essay by Loewe entitled, A Brief History of the Han Empire.

Xu Bing Xu Bing, 2020-09-28 - Monograph focusing on Xu Bing's most ambitious works of art: Book from the Sky and Book from the Ground- Presents the artist's method and motivation in his own words- An accessible yet academic insight into this innovative internationally renowned Chinese artist The written word is the most basic element of human culture. To touch the written word is to touch the essence of culture. - Xu Bing Book from the Sky certainly seemed to have fallen from the heavens: the text of this installation piece was written in a new language that resembled traditional Chinese. No matter who scours Xu Bing's book for 'meaning', they will only discover a semblance of it: mutated characters that resist interpretation. Carving out approximately four thousand wood blocks by hand, Xu Bing spent four years, from 1987 to 1991, making (in his own words) something that said nothing. Book from the Sky's lengthy production process is also detailed in this monograph. Carving approximately four thousand wood blocks by hand, Xu Bing (in his own words) spent four years, from 1987 to 1991, making something that said nothing. After creating a book no one could read, it only made sense for Xu Bing to develop his next project: a book that transcended barriers of language: Book from the Ground. Composed entirely of pictographs, Book from the Ground is a groundbreaking study into the concept of universal communication. Whether his goal

is total comprehension or confusion, Xu Bing's masterful exploration of language challenges the way we think about the written word.
